SEPTEMBER STEEL TRADE.

Present Outlook for Heavy Ordering and Record Output.

From present indications there will be a very large amount of steel business trans acted during September as there is a huge volume of contracts either actually pending or about to be placed, while there is every indication that large additional orders will develop that have not as yet been put be-fore the market. While steel manufac-turers are not trying to force up prices it is expected that there will be many advances before the end of the month because of the great demand. As the Steel Corporation is operating at 26 per cent. of capacity and many other manufacturers at 10) per cent, a record output for Sep-tember is expected for both steel and fron. During August about 1,800,000 tons of nished steel were shipped to consumers. was recorded. The August orders consisted of about 465,000 tons of rails, 43,000 tons of

while about 2,000,000 tons of new busines structural steel, 280,000 tons for various car orders in plates, &c., 35,000 tons for ocomotives and about 50,000 tons miscelabout 1,700,000 tons of orders from other interests. Railroads furnished about 40 per cent, of the August business The United States Geological Survey re-

port for 1911 shows that port for 1911 shows that 23,257,288 long tons of pig iron was produced in the United states that year, as compared with 26,674,123 ong tons in 1919. The total finished steel production was 23,675,501 long tons, as compared with 28,094,979 long tons in 1919. August bookings of orders for pig iron he blast furnace interests totalled 1,000,000 tions, making a new record for the year and sightly surpassing April sales.

We are now in the Second Week of the

Semi-Annual Cut Glass, China and Housefurnishings Sale

Our prices, already "lowest-in-the-city," have been reduced to the limit for this Special Occasion. Our stock of China and Glass on display and accessible for selling is larger than the combined stocks of all the other Department Stores in New York City.

New York is flooded with inferior China and dull, lustreless Cut Glass. Macy's fine Crystal ware, cut in our own factory—the only one of its kind in New York—is unsurpassed for brilliancy, depth of cutting and beauty

Macy's China, produced in our own factories in Rudolstadt, Limoges, and other famous centres, is universally known for its beauty and delicacy of design and ornamentation and for its consistent high quality. We solicit every comparison, secure in the conviction that our goods are first grade, our stocks larger, and their prices lower, than may be found anywhere else in New York.

In Housefurnishings SAVINGS to meet the enthusiastic approval of every housekeeper.
We are the only Department Store that never allowed "Seconds" of Enamel Ware to be sold, because they are dangerous to Health. Basement.

THE Purchase of Your Boy's School Clothing

rime the schools will begin to re-open. Everything in the way of Suits, Coats, Shoes, Hats and Incidentals that is good and good looking is here. It is to the uniform dependability of our stocks and low prices that we owe the distinction of outfitting more boys than any other specialty or department store in New York. The Boys' Store on our second floor specializes in Clothing from sizes 2½ years to 18 years. Most of the 18-year boys we clothe have been Macy-clothed from their earliest years.
